

CHILDREN WORLDWIDE REPORT, 1ST QUARTER REPORT 2019

Follow ups

We trained children workers at Episcopal Church in Matunga on the East coast near Mombasa, over 16 hours travel away, and at PEFA (Pentecostal Evangelical Fraternity in Africa) church in Lomut (4-5 hours away) and Nasiada Free Pentecost church in Saboti, near head office. On February 10th, we at were Matunga to do training on age appropriate teachings; teaching children how to pray; child evangelism; and working with wide age range. The 36 participants were issued with CW certificates as well as bible study books for all ages. On March 8th, we travelled to Lomut in preparation for the training of children teachers the following day. Lessons learned were on Children minister's life and ministry; age appropriate teachings; working with wide age range and using illustration as well as puppets to minister to children. 28 children workers were trained and issued with children bible study books for all ages. We concluded our 3 day trip by ministering to the children during Sunday service. Finally we went to Nasiada in Saboti where 24 children workers and pastors attended. Topics handled were teaching children how to pray; child evangelism; and importance of children ministry.

Our experience is that participants were eager to minister despite being ill equipped and facing serious resource constrains. We were touched while in Lomut by children workers in West Pokot who were walking 8kms in very hot weather every Sunday to reach out children for Christ. Thank you team members for your prayers and support. Our target is to reach as many children workers across the country as God enables us. Help us pray with children ministers to get children bibles which happen to be a greater need in most of the churches at the moment.

Children ministry in our more local community (30mins from head office)

We are grateful to God for the opportunity to minister to children in our local churches, schools and community. We had our annual rally/fun day for children at our Kenyan Assemblies of God churches at Sossio and Kimilili on the 13th and 20th April 2019. The events give as opportunity to minister to children away from normal church program and reach out to unchurched children. Over 300 children attended from our local churches and community. Children used their talents on stage to minister to other children in ways that resonates with their experiences. Many children were born again and filled with the Holy Spirit. God also opened doors for us to minister at Sanandiki, Chwele and Maeni Girls secondary schools. We covet your prayers as we do God's work among young people in our community
